Coating Installation Equipment and Accessories

DESCRIPTION:

ROCK-TRED offers a selection of equipment and accessories to implement the application of coating products.

9" and 18" Roller Cages: Steel-reinforced frame, 4-wire cage that accommodates any handle. No threads or drilled holes are necessary to attach to your handle.

9" and 18" Medium Nap (3/8") Shed-Resistant Roller Covers: Covers are the best you can buy for applying adhesives and solvent applications. Nap is applied onto a 1-1/2" phenolic core with a 2-part epoxy to prevent delamination.

Spike Shoes- One Size Fits All: Polypropylene shoes with 26 3/4" steel spikes, adjustable straps. It is strongly recommended that individuals applying ROCK-TRED Floor Coating products should be wearing spike shoes.

24" Straight Stiff Rubber Squeegee: Steel-back floor squeegee with a 1/4" x 2" black rubber blade. The durable steel handle socket holds your 1-1/8" diameter tapered end handle and requires no nails to securely hold your handle in place.

17" x 3-1/4" Diameter Spiral Mixing Blade: Red steel spiral mixing blade which easily attaches to a standard 3/8" keyless chuck drill. Specialized mixing blade is designed to thoroughly mix coating products in less time and when used properly, reduces air induction into the coating mixture to prevent air bubbles when coating is applied.
